Total before applicable taxes	\$
Commissioned earning requested	\$

Agreement confirmation

This request accompanies a “Web development, SEO & E-marketing order form” concurrently or previously sent to SmarttNet by either myself or my referred client.

I understand that I cannot reverse request commissioned earnings if my referred clients’ order is to change during the project process and that this agreement is a final confirmation of what I will be paid by SmarttNet for products and/or services I have sold as a Spread the Smartt agent.

I understand that my referred client may request additional plug-ins, features or one-off services for their Web site, SEO or e-marketing project to which I am not entitled a commissioned earning and that SmarttNet will quote and bill my referred client directly on the final price of any add-ons to this order.

I understand that any sales work done by SmarttNet during the project process is not eligible for a commissioned earning. If my referred client inquires about additional products and/or services during the project process, it is my responsibility, if I so wish, to notify them that they must come to me for more information and to complete the sales order. If my referred client requests an order from SmarttNet directly, SmarttNet will not be held responsible to reward me any commissioned earning. I understand that SmarttNet pays agents on the Spread the Smartt program for orders only, not leads.

I am fully aware of the rules, terms and conditions previously outlined to me as a Spread the Smartt agent, and as available at www.smartt.com.
